ROBOCUP

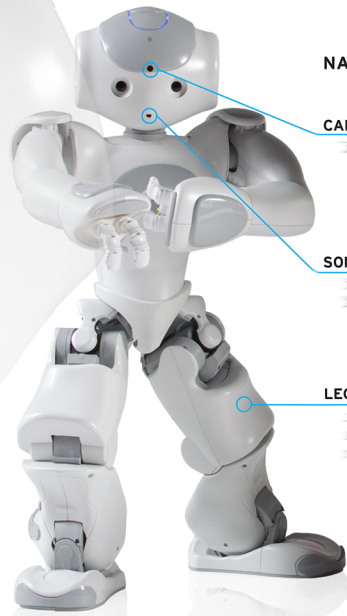

The RoboCup World Cup is the most prestigious tournament in the world. It is a competition for humanoid robots that are designed to play soccer. The robots are built to look like humans and are programmed to learn from their environment. The competition is held every two years and is one of the most popular events in the world.

SONAR

LEGS

The RoboCup soccer competition has three main divisions.

Small Size League
The Small Size League is the smallest of the three divisions. The robots are only 25cm tall and weigh 3kg. They play on a 1m x 1m field. The competition is held every two years.

Medium Size League
The Medium Size League is the middle of the three divisions. The robots are 45cm tall and weigh 12kg. They play on a 3m x 3m field. The competition is held every two years.

Super Size League
The Super Size League is the largest of the three divisions. The robots are 150cm tall and weigh 150kg. They play on a 10m x 10m field. The competition is held every two years.
