Self-Report Form Progress Monitoring & Treatment Effectiveness Report

Name/ID: Jodie Weather
Gender: Female
Birth Date: January 17, 1997

	Administration 1	Administration 2
Name/ID:	Jodie Weather	Jodie Weather
Administration Date:	January 25, 2017	May 2, 2017
Age:	20	20
Examiner:		
Data Entered By:		

This Progress Monitoring and Treatment Effectiveness Report is intended for use by qualified individuals. Parts of this report contain copyrighted material, including test items. If it is necessary to provide a copy of this report to anyone other than the examiner, sections containing copyrighted material must be removed.

About the Comprehensive Executive Function Inventory Adult™

The Comprehensive Executive Function Inventory Adult (CEFI Adult™) Self-Report Form is used to quantify an individual's level of executive function. In combination with other information, results from the CEFI Adult help calibrate an individual's level of executive function in the following areas: Attention, Emotion Regulation, Flexibility, Inhibitory Control, Initiation, Organization, Planning, Self-Monitoring, and Working Memory.

To help the user interpret changes in reported behavior that have occurred over time and to provide an indication of treatment effectiveness, this computerized report provides quantitative information about the ratings of the individual from up to four administrations of the CEFI Adult Self-Report Form. For additional information about progress monitoring and treatment effectiveness, consult the *CEFI Adult Technical Manual*.

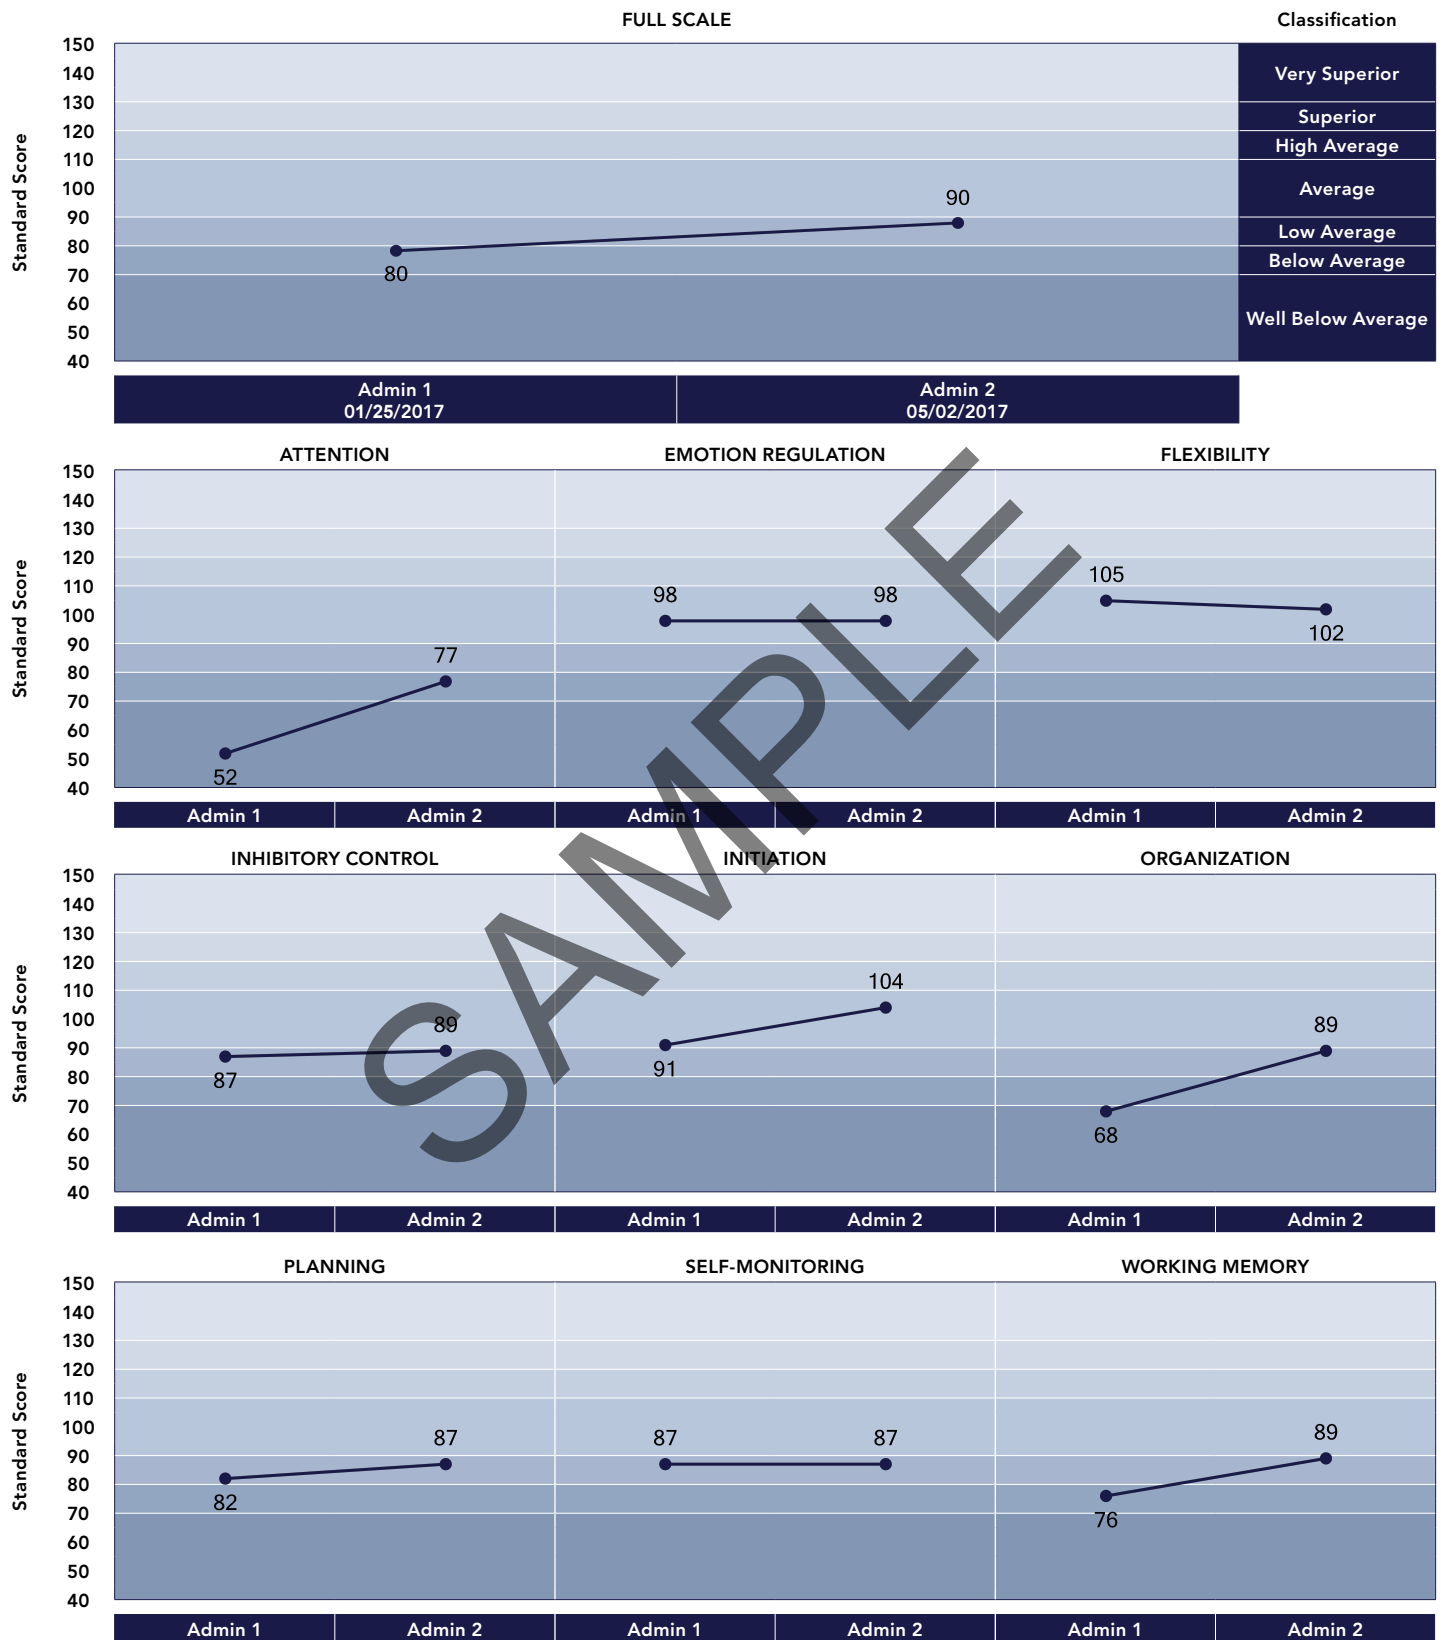

About the Ratings

This section of the report provides an evaluation of the ratings provided by this rater from two administrations of the CEFI Adult. Item scores were examined for consistency, negative impression, and number of omitted items. The amount of time it took to complete the assessment was also examined. If response bias is indicated, the responses should be reviewed with the rater to explore possible reasons why.

Rating Characteristic

	Administration 1 01/25/2017	Administration 2 05/02/2017
CONSISTENCY INDEX	2 An inconsistent response style is not indicated.	2 An inconsistent response style is not indicated.
NEGATIVE IMPRESSION	0 A negative response style is not indicated.	0 A negative response style is not indicated.
OMITTED ITEMS	0 The rater did not omit any of the items.	0 The rater did not omit any of the items.
COMPLETION TIME	15 minutes The response time was typical.	15 minutes The response time was typical.

Overview of Results Across Administrations

Detailed Scores and Significant Change Across Administrations

Jodie's results are detailed in the tables that follow. Standard Scores (SS), Classifications (Average, Above Average, Below Average, etc.), and Executive Function Strengths (EFS)/Executive Function Weaknesses (EFW) are shown for each administration of the CEFI Adult. Statistically significant ($p < .05$) differences across administrations for each score are noted in the "Significant Change Across Administrations" column(s).

Classification: Well Below Average ≤ 69 Below Average = 70–79 Low Average = 80–89 Average = 90–109
High Average = 110–119 Superior = 120–129 Very Superior ≥ 130

FULL SCALE			
Score	Admin 1 01/25/2017	Admin 2 05/02/2017	Significant Change Across Administrations
			Admin (1 to 2)
Standard Score	80	90	Increase
Classification	Low Average	Average	

CEFI ADULT SCALES				
Score		Admin 1 01/25/2017	Admin 2 05/02/2017	Significant Change Across Administrations
				Admin (1 to 2)
Attention	SS	52	77	Increase
	Classification	Well Below Average	Below Average	
	EFS/EFW	Weakness	Weakness	
Emotion Regulation	SS	98	98	No Change
	Classification	Average	Average	
	EFS/EFW	-	-	
Flexibility	SS	105	102	No Change
	Classification	Average	Average	
	EFS/EFW	-	-	
Inhibitory Control	SS	87	89	No Change
	Classification	Low Average	Low Average	
	EFS/EFW	-	-	
Initiation	SS	91	104	No Change
	Classification	Average	Average	
	EFS/EFW	-	-	
Organization	SS	68	89	Increase
	Classification	Well Below Average	Low Average	
	EFS/EFW	Weakness	-	
Planning	SS	82	87	No Change
	Classification	Low Average	Low Average	
	EFS/EFW	-	-	
Self-Monitoring	SS	87	87	No Change
	Classification	Low Average	Low Average	
	EFS/EFW	-	-	
Working Memory	SS	76	89	No Change
	Classification	Below Average	Low Average	
	EFS/EFW	-	-	

Item Responses

The rater provided the following item responses.

Response Key: 0 = Never, 1 = Rarely, 2 = Sometimes, 3 = Often, 4 = Very Often, 5 = Always, ? = Omitted Item
