

A day in the solar system

How long is a day? _____

Why is it this long? _____

How long is a year? _____

Why is it this long? _____

What is a leap year? _____

When is the next leap year? _____

If the length of a year changed to exactly _____ days, how would you change the calendar?

Complete the table with the days and years for the planets of the solar system.

Planet	Mercury	Venus	Earth	Mars	Jupiter	Saturn	Uranus	Neptune
Day								
Year								

Create three day and year problems about the planets.
