

## Other wheels

Gantug creates a cart with two *heels*, which goes across a flat surface.

Draw the *heel* as it moves forward, and sketch the curve made by the centre of the *heel* as it moves.

The *heel* cart goes across a flat surface with flares burning at the corners.

Draw the *heel* as it moves forward, and sketch the curve made by the burning flares as it moves.

Finally, Gantug creates a cart with two *ceels*, which goes across a flat surface.

Draw the *ceel* as it moves forward, and sketch the curve made by the centre of the *ceel* as it moves.

The *ceel* cart goes across a flat surface with flares burning at the corners.

Draw the *ceel* as it moves forward, and sketch the curve made by the burning flares as it moves.
