

Square wheels

Draw a sketch of what a cart with two *squeels* might look like.

The *squeel* cart goes across a flat surface.

Draw the *squeel* as it moves forward, and sketch the curve made by the centre of the *squeel* as it moves.

The *squeel* cart goes across a flat surface with flares burning at the corners.

Draw the *squeel* as it moves forward, and sketch the curve made by the burning flares as it moves.
