Australian Council for Educational Research

ACER's Test Scoring and Analysis supports schools and companies by scoring and analysing assessments and questionnaires.

The service also provides a wide range of quality reports and analysis. These reports enable a comparison of candidates' scores to national norms. Detailed diagnostic and growth reports are also available.

Our service can save you time by:

- Automatically scanning responses to tests or questionnaires
- Scoring your tests or questionnaires
- Providing a variety of customised reports
- Analysing data over time
