Improvement and Innovation in Assessment
A one day seminar for School and Curriculum Leaders

ISQ has successfully negotiated a combined ACER/ISQ Rolling Summit involving officers from ACER’s Centre for Assessment Reform and Innovation. The Summit is intended to take those schools interested in assessment to an increased level of expertise.

ACER is recognized as the leading authority on assessment in Australia and has an enviable reputation throughout the world. ACER is holding a Rolling Summit on Assessment Reform and Innovation. ISQ will host at least THREE of these events for our member schools in Brisbane, Toowoomba, and Townsville (additional locations will be negotiated on demand from member schools). A senior assessment officer from ACER will work with Executive Manager (Australian Curriculum) to facilitate these events. ACER officers are currently preparing a kit of resources and discussion starters for the events. The purpose of the event is to celebrate progress among our teachers and schools in lifting assessment quality and to work on the next steps for improving learning. Participants will learn about more effective and refined assessment practices including utilising technologies more efficiently.

Curriculum Leaders and others who are interested in leading assessment and improving pedagogy are invited to attend one of these events and then to share the ideas, resources and strategies with their teachers back at school so that improved assessment practices occur across the whole school.

ACER will also consult with and gather feedback from the participants on assessment reform and innovation. These events are open to all member schools however those schools involved in the Building Assessment Communities project are especially asked to consider releasing personnel to participate.

**Townsville**
Location: Seagulls Resort  
Time: 9.00am–4.00pm

**Brisbane**
Location: ISQ Professional Learning Centre  
Time: 9.00am–4.00pm

**Toowoomba**
Location: Venue TBA  
Time: 9.00am–4.00pm

Please note that it could be possible to accommodate two other events in regional centres on 17th and 18th June.
